Meet "Mr. Valve-in-Head"

Of course, you know Mr. Valve-in-head. Hidden away under the hoods of thousands of cars, his power and economy are bringing happiness and prosperity to the great army of Buick owners throughout the country.

Twenty years of successful manufacture behind the Buick, and the knowledge that the New model is the greatest Buick ever built, makes Mr. Valve-in-head a true prophet when he says "Cars may come and cars may go but the BUICK goes on forever"
